FUNDRAISING 50 SYSTEM REQUIREMENTS

The following recommendations represent the minimum system specifications required to run your FR50 software solution. Investing in the highest quality equipment possible and budgeting for regular infrastructure upgrades will ensure your fundraising solution is running at peak performance.

SERVER

Component	System Recommendations
SQL Server	- SQL Server 2019 (Standard or Express) - SQL Server 2017 (Standard or Express) - SQL Server 2016 (Standard or Express) - SQL Server 2014 (Standard or Express) - Note: The latest service pack is recommended, and Advanced Services can be installed with the Express version of Microsoft SQL. *See below for additional supported SQL Servers. - Note: The SQL Server, regardless of version of type, must be installed using mixed-mode authentication.
CPU (Processor)	3.0 GHz or faster. Dual Core or greater is preferred.
Operating System	- Windows Server 2019 - Windows Server 2016 - Windows 11 - Windows 10 (Pro or Enterprise) Note: The latest service pack is recommended. **See below for additional supported operating systems.
Framework	Microsoft .NET Framework 4.8 .NET 4.8 must be installed on your server *before* installing Fundraising 50.
Memory (RAM)	4 GB or more
Free Hard Disk Space	2 GB + (3 x approximate database size). This will need to increase as your database size increases.

WORKSTATION

Component	System Recommendations
Operating System	Windows 11, Windows 10 Pro, Windows 10 Enterprise
Framework	Microsoft .NET Framework 4.8 .NET 4.8 must be installed on your workstation *before* installing Fundraising 50.
CPU (Processor)	3.0 GHz or faster. Dual Core or greater is preferred.
Memory (RAM)	4 GB
Free Hard Disk Space	2 GB
Video Adapter	Capable of 1024×768 resolution and 32-bit color
